BRIEF SUMMARY

Results-driven Computer Science undergraduate with hands-on experience in full-stack web development using the MERN stack. Experienced in building scalable applications and RESTful APIs using Node.js, Express.js, Next.js, and MongoDB. Completed multiple internships including IIT Bombay EdTech and currently working as a Software Developer Intern at NexaPrime, contributing to real-world product development. Developed projects such as RideMate, FinVault, and CodClash focusing on secure authentication, API integration, and user-centric features. Strong problem-solving skills with a passion for building impactful and scalable software solutions.

KEY EXPERTISE

Javascript | Java | Node.js | Express.js | MongoDB | GitHub | Nest.js | TypeScript

EDUCATION

D. Y. Patil College Of Engineering & Technology — 2022 - 2026
B.E. - Computer Science & Engineering - D.Y.Patil College of Engineering & Technology | Percentage: **73.77** / **100**

Appasaheb Birnale Public School, Sangli, Ashta — 2022
12th | CBSE | Percentage: **56.80** / **100**

Prakash Public School, Islampur, Ashta — 2020
10th | CBSE | Percentage: **70** / **100**

INTERNSHIPS

NexaPrime Pvt Ltd. | IT / Computers - Software — 01 Jan, 2026 - Present
Software Developer Intern

Key Skills: MongoDB | Next.js | Mongoose | Nest.js

I am currently working as a Software Developer Intern at NexaPrime, a product-based company, where I contribute to the development of scalable web applications. During this internship, I work with technologies such as Next.js, Nest.js, and MongoDB to build full-stack features and improve application performance. My responsibilities include developing and integrating backend APIs, connecting them with frontend components, managing database operations, and debugging issues to ensure smooth functionality of the product.

Through this internship, I am gaining practical experience in full-stack development, REST API development, database management, and real-world product development workflows, while improving my problem-solving and debugging skills in a professional development environment.

IIT Bombay EdTech(Remote) | IT / Computers - Software — 10 Jun, 2025 - 01 Nov, 2025
Full Stack Developer

Key Skills: Node.js | Express.js | MongoDB | Web Development

Developed an interactive gamified coding platform aimed at enhancing programming skills through challenges, rewards, and progress tracking. Implementing key features using the MERN stack (MongoDB, Express.js, React.js, Node.js), focusing on user authentication, leaderboard system, and dynamic challenge modules.

Shiv Infotech | IT / Computers - Software — 10 Jun, 2024 - 10 Jul, 2024
UI Developer

Key Skills: UI Development | HTML | CSS | Javascript

HTML, CSS, and JavaScript were used to build the CRM Project. Participated in regular team meetings and discussions to provide UI/UX suggestions. Contributed to CRM development and helped maintain the company's web-based infrastructure.

PROJECTS

CodClash - Gamified Coding Platform

10 Jun, 2025 - 01 Nov, 2025

Mentor: Dr. Kapil Kadam | **Team Size:** 3

Key Skills: Express.js | Node.js | React.js | MongoDB | Deployment | Git

Project Link: https://iit-bombay-project-pjvu.onrender.com

- Developed a full-stack gamified coding platform enabling users to solve programming challenges in a competitive environment.
- Implemented secure user authentication, challenge modules, and dynamic leaderboard systems using Node.js, Express.js, and MongoDB.
- Designed RESTful APIs for managing coding challenges, user progress, scoring logic, and leaderboard rankings.
- Built real-time ranking and reward mechanisms including points, levels, and achievement badges to improve user engagement.
- Optimized database queries and application performance for efficient challenge evaluation and leaderboard updates.

Finvault

20 May, 2025 - 15 Jun, 2025

Key Skills: MERN | Full Stack Development | Finance | APIs | Express.js | Node.js

Project Link: https://github.com/atharvapugade/FinVault

- Developed a full-stack personal finance management platform to help users track budgets, investments, and financial goals.
- Implemented modules for budget management, investment tracking, and automated financial risk alerts.
- Integrated real-time financial market APIs (FMP, Yahoo Finance) to fetch live stock and investment data.
- Designed data analytics dashboards using MongoDB aggregation pipelines for generating user financial insights.
- Developed secure REST APIs for transaction management, portfolio tracking, and financial reporting.

RideMate

10 Jan, 2025 - 01 Mar, 2025

Key Skills:

MongoDB | Node.js | Express.js | Critical Thinking | Problem Solving | Google Maps API | Nodemailer | Mapbox API

Project Link: https://github.com/atharvapugade/RideMate

- Developed a secure MERN-based ride-sharing web application enabling users to offer and book rides with role-based access control.
- Implemented JWT-based authentication and authorization to ensure secure user login and protected API endpoints.
- Integrated DigiLocker Aadhaar verification API to validate user identity and enforce women-only ride safety features.
- Designed and implemented modular REST APIs for ride creation, ride booking, search functionality, and user management.
- Integrated Mapbox API to enable intelligent location autocomplete and route-based ride search.
- Implemented real-time email notifications using Nodemailer for ride confirmations and updates.
- Ensured secure data storage and scalability using MongoDB Atlas and optimized schema design.

ACHIEVEMENTS

- Finalist – GTT Data Solutions Hackathon 2025
- Selected for IIT Bombay EdTech Full Stack Internship
- Published white paper: Local Market Hub E-Commerce Website, IRJMETS, 2025
- Participated in TechBattle, Technosis 2025, Shivaji University

CO-CURRICULAR ACTIVITIES

- Treasurer - Entrepreneurship cell DYPCET
- Training and Placement coordinator
